

Accessories

Injector/Extractor Handles, Microswitch

Type VII Injector/Extractor Handle (Telecom)

Metal injector/extractor handle for insertion and removal of connectors with a large number of pins (up to 835 N). This handle was specifically designed for use in telecom applications.

Only for use in conjunction with front horizontal rails with a 10 mm extension.

- Optionally available with 1/2HP offset
- Option of installing keys
- Optional integral microswitch for "live insertion" applications
- ESD pin to dissipate static charges
- Metal design for use in aggressive atmospheres

Material:

Die-cast zinc

Supply Includes:

Injector/extractor handle, assembly parts

Handles Without Offset

Installation	Packs of	Order No.
Top	1	3688790
Bottom	1	3688791

Handles With Offset

Installation	Packs of	Order No.
Top	1	3688786
Bottom	1	3688787

Accessories:

keys, see page 00
